 Enterprise

Manufacturers Of
School Benches | Display Products | Office Furniture

Education systems have changed and so has the way we think about classroom furniture. The idea was then to provide mere benches and board i.e. the necessities taking care of just the functional requirement of the class. Today classrooms are indeed a place not only to study and learn but to play, relax, have fun and do lot more. Hence the place is right when it's bright, cheerful and above all furnished in a way that exuded homeliness and warmth to keep alive the interest level of the students. So its time to give schools furniture the look it deserves of style and versatility apart from being truly functional. At Sai Enterprise, we have grown with the times. With an extensive spectrum of value added products, we are a leading name in all type of school furniture systems, and have stamped our presence in this trade since last one decade with factory situated in surat. Sai Enterprise has been shaped by a unique blend of experience, expertise and entrepreneurship combining innovation and creativity to reach for excellence in all its products. The quality and tradition of the company's product generate confidence with a reputation from maintaining high standards around the market since years. Sai Enterprise today is leveraging its unique R & D, strengths and marketing insights to meet the challenges of the changing times and our sector requirements. Crafted from the fines wood using sophisticated equipment, every 'Sai' product passes through stringent quality and performance tests.

Moreover our products are carefully chosen and planned in a way to transform anyone's classroom into a comfortable and friendly zone, adding utility and quality in a way that no one else can. So we build a classroom to one's individual needs, designed and furnished to make the most efficient use of space, incorporating our furniture ideas and creative flair, to turn one's dream school into reality and to achieve this we are more than willing to go the extra mile on product quality, range, delivery and technical advice.
