ABOUT US

Education systems have changed and so has the way we think about classroom Furniture. The idea was then to provide more benches and board i.e. the necessities taking care of just the functional requirement of the class. Today classrooms are indeed a place not only to study and learn but to play, relax, have fun and do lot more. Hence the place is right when it's bright, cheerful and above all furnished in a way that exuded homeliness and warmth to keep alive the interest level of the students.

So its time to give schools furniture the look it deserves of style and versatility apart from being truly functional. At Sai Enterprice, we have grown with the times. With an extensive spectrum of value added products, we are a leading name in all type of school furniture systems, and have stamped our presence in this trade since last one decade with factory situated in surat. Sai Enterprise has been shaped by unique blend of experience,expertise and entrepreneurship combining innovation and creativity to reach for excellence in all its products.

OUR WORKING PROCESS

Discuss Project Requirements

Engage with clients to thoroughly understand their needs and project specifics.

Formulate Requirements on Paper

Document and outline project requirements, presenting multiple options or solutions to the client.

Demonstration for Client Satisfaction

Provide a demonstration or sample to ensure client satisfaction and alignment with project expectations.

Execution and Delivery of Project

Execute the project as per agreed - upon terms and deliver the final product or service.

Client Feedback for Improvement

Solicit feedback from the client post - delivery to identify areas for improvement and ensure satisfaction.

Periodical Services

Offer ongoing support and services as needed to maintain the project's effectiveness and address any future needs.
